

# MediaFast Caching Routers

## Case Study - Colégio Next. Itatiba, Brazil.

### Apple Distinguished School. 500 iPads, Instant Concurrent Access To Educational Content

- 600 users, both students and teachers use the network for teaching and learning
- Needed solution for network congestion caused by concurrent network use
- **Winning Factors**
  - Each AP 300M 5GHz handles 50+ users without issues
  - MediaFast aching ensures lightning fast access to media-rich content

*"The MediaFast and AP overcomes all our network problems. The speed difference in content retrieval is extremely impressive!" - Alberto Pamos, IT Director. Colégio Next.*
